

Useful Tips: If you think you are doing your dog a favor by letting him stick his head out of the car window, be careful. It can be very dangerous; debris can get into their eyes, nose, or ears. We tell our children to keep their hands and heads inside the car while riding, why not dogs? Also, traveling your dog on the back of an uncovered truck bed can also be dangerous. If you need to make a quick turn or sudden stop your dog can lose its balance and be thrown from the truck bed. Injuries or maybe even death could occur from such an incidence. Keep your dog safe by choosing their mode of transportation carefully.

Pretty Paws Care Tips:

Get your dog's ears cleaned regularly especially after summer swimming. Ear cleaning solution has alcohol, which aids in drying out the inside of the ears. Keeping your dog's ears dry will help prevent ear infections and yeast growth. Dog's that swim a lot and also have non-erect ears tend to have more problems with increased yeast and ear infections.

August Topic of Importance:
Dog Days of Summer

Summer time can be very hard for dogs to stay comfortable and cool. We need to help them and make sure that they have shady areas to be in while they are outside. We also need to make sure they drink plenty of water to help them stay cool. Some dogs do not ingest enough liquids to replenish what they may lose through the panting and exercise. We can encourage them with special drink products such as the K9-Quencher. This product is considered a sport drink for dogs. The variety of flavors attracts dogs more than when they are offered just plain water. The K9-Quencher can quickly replenish lost vitamins and electrolytes that may be lost through activity. It helps your dog quickly recharge. We do have this product available in our Retail Store.

Featured Retail Products

Dawgs in Motion is now carrying a new dog biscuit line made by a local company called "**Cleo's Canine Kitchen**". They specialize in dog biscuits freshly made without any added preservatives. Come in and try some Cheesy Chews, Nutty Molasses Morsels, Peanut Butter Bites and many more varieties.

"Tutoring By Us" Classes

Our dog Emma has taken several classes of the "Tutoring By Us" over the last couple of months. The first tutoring class Emma took was Beginner Obedience. This class helped out at home because Joan was able to teach our dog the simple commands. Emma has also taken a Tutoring trick class. Joan has done a wonderful job training our dog one on one, making our training experience that much easier and more enjoyable for the whole family. Like most families, sometimes you put too much on your plate and we felt we wouldn't have put in the necessary time to teach our dog obedience along with tricks. Now that we see the immediate results we make sure to find time to work with her, and show her off when friends come over. Joan is also able to train Emma while she at Day Camp, which helped us out tremendously.
- Ann Maase

Dawgs in Motion will Tutor most any of our classes but we would encourage you to attend a session with your dog following the tutoring so that you can learn the commands and you can continue to work with your dog so that all the learned tasks are retained.

New In-Home Tutoring Classes - We offer services where we will come to your home and teach your dog our structured classes. Call and inquire if you are interested.

New Outside Training area

Dawgs in Motion will soon be able to utilize the outside training area, which is 110 x 107 ft. in size. We now have our fencing up and the grass is growing. As soon as the grass is more established we will move in our second set of Agility equipment. This agility field will be regulation size with all regulation equipment. We will put the opening date on our website once we know when it will be.

Congratulations to our Day Camp Dogs of the Week!
